The Radisson Parrots ~ We have been adopted by the iridescent green Radisson Parrots. We don't know where they came from or when they are checking out, but they've been here for about 5 years. And there are about a dozen of them, and growing. They make their home in the massive Canary Island Date Palm overlooking the Tiki Bar and large swimming pool. We can't promise that they will be here, since they are free to come and go, but with our lush tropical landscaping they know a good thing when they see it. They have burrowed homes in the center of the palm. We can replace the palm, the Radisson Parrots are irreplaceable. and lots more...
